

Article Submission Guidelines

Research Articles:

There is no absolute length requirement for manuscripts but the preferred length is 8,000–10,000 words. An abstract of no more than 150 words should be provided at the beginning of the article. If possible, manuscripts should be prepared in MS Word using Times New Roman 12 point font. Double- space the abstract, manuscript, notes, and indented quotations. Number pages consecutively. Articles should be submitted as both a MS Word document and an accompanying PDF to region.articles@gmail.com.

Review Articles:

Review essays analyze in depth a discrete body of noteworthy secondary works, should begin with a title and list of books under consideration, with full bibliographical information. The preferred length is 1,500–3,000 words.

Reviews are expected to contain a scholarly apparatus, although it need not be extensive. The preferred length is 750–1,000 words. A review should bear no title and begin with the bibliographic data of the book under review.

We welcome suggestions for books to review, as well as book reviews themselves. To suggest a book for review or to volunteer as a reviewer, please contact Dr. Brandon Miller (bgmiller@mail.smu.edu).
