

Contents

Note on Notation	ix
Preface	xi
1. Aspectual Prefixes: Emptiness vs. Overlap	1
1.1. Aspect in Russian: The Role of Prefixes	1
1.2. Types of Perfectives in Russian	3
1.3. Two Hypotheses: Empty Prefixes vs. Overlap	6
1.4. A Database of Prefixes and the Pairs They Form	14
2. Small Prefixes: Radial Category Profiling	19
2.1. Corollaries to Be Tested	19
2.2. The Structure of Meaning: Radial Categories	20
2.2.1. Radial Category Profiling	24
2.3. Format of Presentation	25
2.4. Prefixes with Complete Semantic Overlap: <i>u-</i> and <i>v-</i>	30
2.4.1. <i>U-</i> MOVE AWAY	30
2.4.2. <i>V-</i> INTO	41
2.4.3. <i>U-</i> and <i>v-</i> and Corollary 1 of the Overlap Hypothesis	42
2.5. Prefixes with Majority Semantic Overlap: <i>raz-</i> , <i>pri-</i> , <i>ot-</i> , <i>v(o)z-</i> , <i>o(b)-</i> , <i>vy-</i> , <i>iz-</i>	42
2.5.1. <i>Raz-</i> APART	42
2.5.2. <i>Pri-</i> ARRIVE	52
2.5.3. <i>Ot-</i> DEPART	54
2.5.4. <i>V(o)z-</i> MOVE UPWARD	56
2.5.5. <i>O(b)-</i> AROUND	58
2.5.6. <i>Vy-</i> and <i>iz-</i> OUT OF A CONTAINER	61
2.5.7. <i>Raz-</i> , <i>pri-</i> , <i>ot-</i> , <i>v(o)z-</i> , <i>o(b)-</i> , <i>vy-</i> , <i>iz-</i> and Corollary 1 of the Overlap Hypothesis.....	66
2.6. Prefixes with Minority Semantic Overlap: <i>pere-</i> , <i>pod-</i>	66
2.6.1. <i>Pere-</i> TRANSFER	66
2.6.2. <i>Pod-</i> APPLY TO BOTTOM	75
2.6.3. <i>Pere-</i> and <i>pod-</i> and Corollary 1 of the Overlap Hypothesis	77

2.7. Summary of Radial Category Profiling Analysis of Small Prefixes	77
3. Big Prefixes: Semantic Profiling	81
3.1. Corollaries to Be Tested	81
3.2. Semantic Tags in the Russian National Corpus	83
3.3. Statistical Analysis	84
3.3.1. Statistical Significance and Effect Size	87
3.3.2. Attractions and Repulsions	89
3.4. Semantic Analysis	92
3.4.1. Semantic Profile of <i>po-</i>	93
3.4.2. Semantic Profile of <i>s-</i>	97
3.4.3. Semantic Profile of <i>na-</i>	100
3.4.4. Semantic Profile of <i>za-</i>	102
3.4.5. Semantic Profile of <i>pro-</i>	106
3.5. Summary of Semantic Profiling Analysis of Big Prefixes	111
4. Prefixes and Syntax: Constructional Profiling	115
4.1. Corollaries to Be Tested	116
4.2. Active and Passive Uses	117
4.3. Full and Reduced Constructions	123
4.4. Logistic Regression Model	127
4.5. Metaphorical Uses	131
4.6. Prepositions	134
4.7. Summary of Constructional Profiling Analysis of <i>грузить/грузит'</i> 'load' and Its Natural Perfectives	138
5. Prefix Variation	139
5.1. Corollaries to Be Tested	140
5.2. The Extent of Prefix Variation	141
5.3. Case Studies of Prefix Variation	148
5.3.1. The Simplexes that Form Natural Perfectives with <i>za-</i> <i>o(b)-</i>	149
5.3.2. The Simplexes that Form Natural Perfectives with <i>za-</i> <i>u-</i>	153
5.3.3. The Simplexes that Form Natural Perfectives with <i>iz-</i> <i>raz-</i>	157
5.3.4. The Simplexes that Form Natural Perfectives with <i>ot-</i> <i>pro-</i>	159
5.4. Summary of Analysis of Prefix Variation	162

6. Aspectual Triplets	163
6.1. Corollaries to Be Tested	164
6.2. The Structure of Aspectual Triplets	165
6.3. The Extent of Aspectual Triplets	169
6.4. The Role of Meaning in Aspectual Triplets	171
6.5. Summary of Analysis of Aspectual Triplets	176
7. The Verb Classifier Hypothesis	179
7.1. The Verb Classifier Hypothesis	179
7.2. Numeral Classifier Systems	180
7.3. Why Russian Prefixes Are an Aspectual Classifier System	182
7.4. Verb Classifiers against the Backdrop of Noun-Verb Comparisons	188
7.5. Summary of Russian Prefixes as Verb Classifiers	192
8. Conclusion	195
